

What You Can Do Next

Your doctor's office will be contacted for a copy of your medical records. This is important to your application review. Some doctors will require that their own authorization form (HIPAA) is completed to release medical records.

Please contact your doctor today. Let them know they will be receiving a request for your medical records and ask if they need you to sign a special authorization form. If so, please ask that they send the form directly to you so you can complete it and forward to Friends Life Care. This can help expedite the underwriting process.
